WORK & VOLUNTEER EXPERIENCE

Research Assistant — James Gaskin, PhD

January 2026 – Present

Brigham Young University – Provo, UT

- Evaluated and benchmarked alternative AR tools to standardize the development pipeline on Unity.
- Spearheaded the end-to-end development of an augmented reality space application utilizing Unity.
- Collaborated on cross-project reviews to optimize a faculty-developed statistical platform.

Teaching Assistant — Introduction to Information Systems

January 2026 – Present

Brigham Young University – Provo, UT

- Provide technical mentorship and debugging support in SQL, VBA, HTML/CSS, and Statistics.
- Facilitate hands-on labs covering analytics in ERDs, Flow Charts, Tableau, and Excel Solver.
- Collaborate with faculty to audit, review, and refine course curriculum and materials.
- Design and deliver comprehensive exam review presentations to simplify complex topics.

Community Aid — Student Family Housing

August 2025 – Present

Brigham Young University – Provo, UT

- Provide operational support and policy compliance for two multi-family housing complexes.
- Act as an on-call responder for immediate resident needs, maintenance, and emergencies.
- Coordinate resource distribution and logistics for neighborhood events and initiatives.

Data Migration & Automation Specialist

November 2025 – February 2026

Empowered Cooks – Remote

- Architected automated n8n workflows to integrate Shopify, Customer.io, and Membership.io.
- Leveraged n8n to diagnose, debug, and reconstruct a failing, business-critical automated workflow that had stalled under legacy development.
- Audited and optimized legacy Zapier automations to eliminate bugs and streamline integrations.

Records & Information Management Assistant

July 2024 – January 2026

BYU Office of Information Technology – Provo, UT

- Maintained data security integrity and regulatory compliance by managing confidential records.
- Developed an Excel VBA macro that automated a quarterly, week-long data gathering and formatting process down to 20 minutes.

- Programmed an automated data-matching script to cross-reference monthly HR job-change reports against active records liaisons, automating system update flags for a network of over 300 liaisons.
- Engineered a mobile barcode scanning solution to replace error-prone manual record tracking, mitigating human error and improving daily efficiency.
- Executed regular statistical analyses on records activity trends to forecast infrastructure needs.
- Authored SOPs, knowledge-base files, and training materials for full-time staff.

Community Support Worker

June 2023 – August 2023

Craig Spjute – *Boise, ID*

- Supported daily living, social growth, and life skills training for a client with special needs.

Delivery Driver

September 2022 – July 2024

UberEATS & DoorDash – *Boise, ID & Provo, UT*

- Sustained a 100% customer satisfaction rating through proactive communication.

Full-Time Volunteer Representative

September 2020 – September 2022

The Church of Jesus Christ of Latter-day Saints – *Mesa, AZ & Scotland/Ireland*

- Coordinated and led religious instruction sessions and prepared weekly progress reports.

Host & Busser

December 2018 – June 2020

Olive Garden Italian Kitchen – *Boise, ID*

- Managed seating flow and table turnover during peak dinner rushes while coordinating between guests and servers.

Carhop & Drive-thru Operator

May 2018 – August 2018

Sonic Drive-In – *Boise, ID*

- Delivered fast, accurate service on high-volume shifts, efficiently taking orders and handling payments.
